Zangmeister Center Welcomes Gynecologic Oncology Specialists to Practice
Doctors bring more than 30 years of combined experience to cancer center

COLUMBUS, Ohio – The Mark H. Zangmeister Center welcomes the addition of George Lewandowski, M.D. and Luis Vaccarello, M.D., as partners at the oncology and hematology care center. The gynecologic oncologists focus on the screening, diagnosis and management of diseases of the female reproductive organs, including ovarian, uterine and cervical cancer.

The Zangmeister Center's continuum of gynecologic oncology care ranges from the management of potentially cancerous conditions with minimally invasive techniques such as LEEP, laser and laparoscopy, to the aggressive treatment of cancer with surgery, chemotherapy and radiation treatment.

"We are thrilled to welcome these doctors to the center," said Dr. Mark Thompson, president and managing partner of The Zangmeister Center. "Their expertise in this field and the level of professionalism and knowledge they possess will be of the utmost importance to our patients."

Dr. Lewandowski is a graduate of John Carroll University and The College of Medicine at The Ohio State University. He completed his residency in Obstetrics and Gynecology at OSU, and completed his fellowship in Gynecologic Oncology at Georgetown University in 1989.

Dr. Vaccarello is a graduate of Princeton University and the University of Pennsylvania School of Medicine. He completed a residency in Obstetrics & Gynecology at Magee-Womens Hospital, University of Pittsburgh Medical Center. He completed a research fellowship at the Pittsburgh Cancer Institute and clinical fellowship in Gynecologic Oncology at the Memorial Sloan-Kettering Cancer Center in New City in 1992.

Drs. Lewandowski and Vaccarello will begin seeing patients at The Zangmeister Center on Aug. 1.

About The Zangmeister Center

Established as Mid Ohio Oncology/Hematology in 1982, The Zangmeister Center offers compassionate care and treatment for disease management of cancer and blood disorders in and around central Ohio. The Zangmeister Center eases access to medical expertise, disease research, treatment and prevention, and patient advocacy, all under one roof. For more information please visit www.zangcenter.com.
